

This project has received funding from the European Union's Horizon Europe Framework Programme under grant agreement No 101096456

NANCY

An Artificial Intelligent Aided Unified Network for Secure Beyond 5G Long Term Evolution [GA: 101096456]

Deliverable 1.2

NANCY web site, social network pages and open access server

Programme: HORIZON-JU-SNS-2022-STREAM-A-01-06

Start Date: 01 January 2023

Duration: 36 Months

The project is supported by the Smart Networks and Services Joint Undertaking and its members.

Executive summary

This deliverable presents the project website and the social media accounts which will be used as the main channels to communicate and disseminate the project outcomes, achievements, and news.

The website can be reached using the following address: <https://nancy-project.eu/>. It has been designed to be responsive and professional. The website includes information about the project, the consortium, the objectives, and project-related news and events. It will be continuously updated throughout the project's duration.

Moreover, Twitter, LinkedIn, and Facebook accounts were in order to facilitate the communication and dissemination activities of the project. Specifically, the respective addresses are as follows:

- https://twitter.com/NANCY_snsju
- <https://www.linkedin.com/company/nancy-snsju-project/>
- <https://www.facebook.com/profile.php?id=100089887082972>

Potential changes and improvements may take place in the future in order to address any needs not identified at this stage of the project.

1. Introduction

1.1. Purpose of the Deliverable

This deliverable describes the main communication channels that will be used for the communication and dissemination of NANCY's outcomes, news, and achievements. To this end, a website and four social media accounts, namely Twitter, LinkedIn, and Facebook have been created.

All these channels will be updated as the project progresses with new information such as project news, events, main achievements, dissemination material, publications, and public deliverables.

1.2. Relation to other Deliverables

This deliverable receives the grant agreement as input.

1.3. Structure of the Deliverable

The structure of the deliverable is as follows:

- **Section 1 – Introduction:** This section provides an introduction to the deliverable.
- **Section 2 – Project Website:** This section describes the structure and content of the NANCY website.
- **Section 3 – Social Media Accounts:** This section presents the social media accounts, namely Twitter, LinkedIn, and Facebook.
- **Section 4 - Conclusion:** This section concludes the deliverable.

2. Project Website

2.1. Introduction

The project website will be the main channel for the dissemination and communication of NANCY activities. Its aim is to serve as a source of information for the associated stakeholders, as well as the general audience.

All news regarding the project will be published on the website, along with the material, such as newsletters, posters, and whitepapers. Additionally, The NANCY consortium will monitor the number of visitors. The project website was created by OTE and can be reached at: <https://nancy-project.eu/>

The website will be available at least two years after the project's end to ensure the sustainability of the project results.

2.2. Technical Information

The website was built using the WordPress content management system, which is a widely used open-source software based on MySQL and PHP. A responsive design approach was adopted towards increasing its attractiveness. This means that the structure and appearance of the website adapt to visitor devices. Consequently, both desktop and smartphone users will have the same user experience.

2.3. Structure

The website is divided into the following parts:

- The navigation header at the top of each page, containing links to other pages.
- The main content area, where all information is presented.

2.3.1. Navigation Header

As shown in Figure 1, the navigation header includes links to the home page, the project news & events, the deliverables, and the contact form. Additional pages are expected to be added as the project progresses.

Figure 1: Navigation Header

2.3.2. Main Content Area

The main content area presents information about the project. Specifically, Figure 2, Figure 3, and Figure 4 depict parts of the Homepage, while Figure 5 shows the Deliverables page.

CONSORTIUM

Partners

Figure 2: Homepage (1)

The banner features a dark blue background with a central burst of light rays. The text is white and reads: "A secure and intelligent architecture for the beyond the fifth generation (B5G) wireless network". In the top left corner, there is a small box with the text "NANCY PROJECT". In the bottom left corner, there is an orange button with the text "Learn More" and a right-pointing arrow. In the bottom right corner, there is a small text block: "The NANCY project has received funding from the European Union's HORIZON-JU-SNS-2022 under Grant Agreement No. 101096456 (Research and Innovation Action)." Below the banner is a horizontal dotted line.

DELIVERABLES

The NANCY deliverables

The table below provides a list of the deliverables of the NANCY project. Public deliverables can be downloaded by clicking on their name.

Number	Deliverable Title	Delivery Date
D1.1	Project and Risk Management Handbook	M01
D1.2	NANCY web site, social network pages and open access server	M01
D1.3	Plans for Publicity, Dissemination and Exploitation	M03
D1.4	Project Scientific/Technical Plan	M05
D1.5	Data Management Plan	M06
D1.6	Initial Impact Creation Report	M12
D1.7	Initial Standardization Activities Report	M18
D1.8	Market Analysis, Roadmap and Business Modelling Report	M20
D1.9	Final Impact Creation Report	M36
D1.10	Final Standardization Activities Report	M36

Figure 5: Deliverables

3. Social Media Accounts

Social media accounts will be leveraged complementary to the project website in order to ensure widespread dissemination and communication of the project. These accounts will be used to inform the audience about the project outcomes, results, achievements, and organization or participation in various events. Furthermore, all consortium partners will utilize their own social media accounts for the communication of NANCY social media. In this direction, a common identity was adopted by the social media accounts, using the same logo, descriptions, and images in order to create a brand name for the project.

3.1. Twitter

A Twitter account (Figure 6) has been created for quick and wide communication of the project news and achievements. The account name is *@NANCY_snsju* and can be also reached at: https://twitter.com/NANCY_snsju

Figure 6: Twitter Account

3.2. LinkedIn

A LinkedIn page (Figure 7) was created for posting news related to the project, as well as for disseminating project results. The page name is *NANCY SNS JU Project* and can be reached at: <https://www.linkedin.com/company/nancy-snsju-project/>

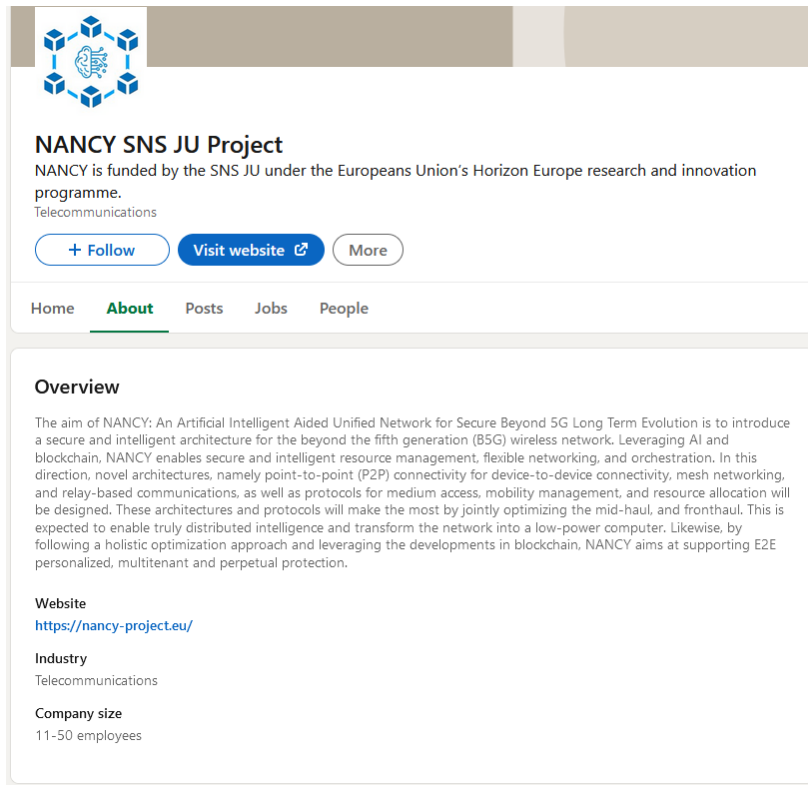

Figure 7: LinkedIn Page

3.3. Facebook

A Facebook page (Figure 8) has been created for posting news related to the project, as well as for disseminating project results. The name of the page is *NANCY SNS JU Project* and can be reached at: <https://www.facebook.com/profile.php?id=100089887082972>

Figure 8: Facebook Page

4. Conclusion

The aim of this deliverable is to present the main channels that will be used for the communication and dissemination activities of NANCY. The website includes information about the project and will be continuously updated in order to meet the dissemination requirements reflecting the advancements of the tasks and demonstrators. Moreover, social media accounts will be used to ensure the wide dissemination and communication of project outcomes, events, and achievements.
